Is the partner organisation a public body?	No
Is the partner organisation a non-profit?	Yes

D. BACKGROUND AND EXPERIENCE

Please briefly present the partner organisation .	MeetLab is an Italian sport club that was founded in 2018 by the desire to implement sports, recreational and cultural programs aimed at disadvantaged people in a sensitive area such as the suburbs of Turin. Following the increase in migration, the increase and recognition of disadvantaged groups (new poor, NEETS, nomads, the disabled, the elderly at risk of isolation), and the continuing challenges to adapt to an increasingly technological and intercultural world, a peripheral territory, and in some areas still unresponsive to new stimuli like that of the suburbs of Turin, expressed the need for novelty and preparation. The goal of MeetLab is to offer citizens activities and programs that foster integration, inclusion and social cohesion, using sport as a main vehicle, but also culture, art in all its forms and the exchange between different subjects. The goal of MeetLab can be found in its name: meet, which means meeting but also knowing each other, and lab. A laboratory to foster social relationships, skills, knowledge, active citizenship through a simple but modern language, and addressed to the individual who becomes a community. MeetLab is a non-political and non-religious association. **The objectives of the association are:** - Development of active citizenship: inform citizens about their rights and make them participate in their own reality, promote volunteering in sports, recreational and cultural activities, promote the protection of cultural heritage and the environment and support for people in disadvantaged conditions - Develop and implement sports, cultural and recreational programs for disadvantaged groups to promote integration and inclusion. MeetLab does not discriminate for reasons of sex, age,

	ethnicity, culture, religion, sexual orientation and political orientation. - Promote sport as a vehicle for health, and promote healthy and active lifestyles for thepopulation. - Support and promote innovation, including technology, in the field of sport and culture. - Expanding its network also at European level, to bring the international scope and the exchange between countries also in the suburbs **To achieve their goals, the following actions will be carried out:** - Collaboration with administrations and press at all levels - Networking with different realities of the territory, as well as at regional, national andinternational level - Participation in European calls for proposals in collaboration with partner associations - Organization, in parallel with the implemented activities, of seminars, conferences, training and events open to all, both to organizations and target groups - Experts from Meet Lab can adapt to any task related to its objectives. **Our activities** - Provision of gentle gymnastics and meditation courses for people with intellectual disabilities - Provision of gentle gymnastics courses for elder people - Psychological support to groups of marginalized young people in conditions of serious social vulnerability, suffering from complex traumas, such as unaccompanied minor migrants - Training for sports educators - Writing and implementation of co-financed European projects - Support to newcomer associations for the writing and submission of European co-financed projects
